

Oily Scalp Treatment – \$37.80

Moroccanoil® has developed a professional regulating treatment to control the scalp and revive hair.

Moroccanoil Oily Scalp Treatment is a concentrated formula of antioxidant-rich argan oil and essential ginger oil. It helps to correct imbalances and soothe inflammation of the hair follicle, which manages oil production. Roots are lifted and hair takes on more body and life. Used pre-shampoo, it soothes the scalp and keeps it from getting too oily or dry.
